**DESIRED = <10%
TREND**

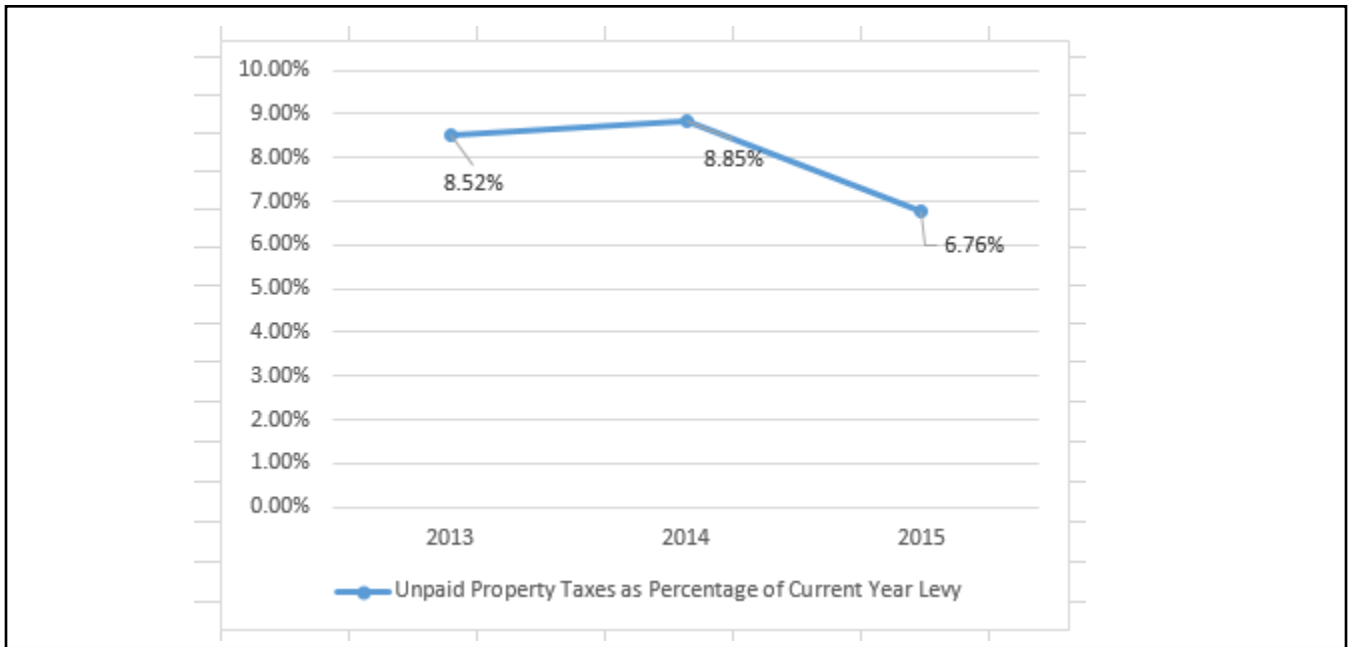

Figure 1. Unpaid Property Taxes as Percentage of Current Year Levy, 2013-2015

Unpaid Property Taxes as Percentage of Current Year Levy: Taxes receivable as a percentage of the annual property tax levy.

CURRENT TREND

The tax levy has remained relatively stable with a significant reduction in taxes receivable in 2015.

DESIRED TREND

An annual reduction in taxes receivable as a percentage of the tax levy.

WHY IS THIS IMPORTANT TO CREATING FINANCIAL SUSTAINABILITY?

Increasing taxes receivable can be an indicator that the tax base cannot afford the current levy. This measure can also be reflective of the overall state of the local economy with taxes receivable increasing during recessionary periods and decreasing during periods of economic growth.
