Ice Allocation Policy

1. Defining Minor Ice Times

Prime time ice is defined as:

Monday to Friday	5:00 p.m. to 11:00 p.m.
Saturday	6:00 a.m. to 11:00 p.m.
Sunday	7:00 a.m. to 11:00 p.m.

These hours are to be allocated for Minor programs except in the following situations:

- Where an adult or special needs group has rented ice time for at least two consecutive years they shall receive first consideration for the use of the same ice time the following year. (i.e. Adult Contract Rentals)
- Where the Facility Supervisor determines that it is appropriate to provide ice time for a particular program because of a special need.

Where the demand outweighs the availability of ice, a percentage of total ice time allotted must be during non-prime ice. (6:00 a.m. – 4:00 p.m. in home arena)

2. Eligibility for Minor Ice

A Minor Sport Group shall have the following characteristics:

- Be non-profit and the membership is comprised of youth;
- Be guided by a constitution and by-laws;
- Hold general membership meetings annually and be able to provide upon request annual financial statements; and
- Have a volunteer elected Board of Director's; must supply a schedule of how ice time is utilized (general weekly outline)

3. New Organizations:

New organizations may be included in the system, if it is demonstrated through a registration process that there are sufficient participants to qualify for ice time allocation and if there is surplus ice time available. The registration for new organizations must include the payment of the applicable registration fee to the organization.

Accommodating new groups by reducing the number of hours available to existing groups, will be considered only in cases where a program is being introduced that will provide service to a previously non-served segment of the population, or where a new program is being introduced that is not available through an existing organization.

4. Home Arenas

Home Groups will be offered first choice of available ice time allocation. If there is an opening in a non-home arena, groups will be able to apply for ice time slots only if home group's needs are met.

Exceptions:

- Where two or more associations are requesting additional surplus ice in the same home arena, the ice will be proportionately distributed.
- After the initial allocation of ice, organizations that are in a deficit may be eligible for additional ice in non-home arenas where surplus ice exists. If a minor group utilizes ice time outside their home arena it will be considered as part of their non-prime allotment.

Cancellation of the non-prime allotment will be as per Item XI of the Terms & Conditions – Ice/Floor Use.

5. Historical Precedent

It will be a principle of the allocation system to give due consideration to the allocation of ice according to previous years. Significant changes to previous year's ice shall be based on changes to registration levels, registration composition or to emerging needs.

6. Facility Supervisors

Whenever a decision is required under this policy, the Facility Supervisor is granted the authority to make a final determination.

7. Tournaments

Request for tournaments will be reviewed by user groups at the annual allocation meeting. If a new or expanded tournament is requested and approved, the group that made the request must reimburse the affected groups for the ice time lost. New tournaments will be considered in the pre or post season by Facility Supervisors.

Exceptions

- If an organization has operated a tournament for two consecutive proceeding years, it shall have an opportunity to rebook.
- Public Skating - Each individually scheduled public skating time will not be cancelled more than 5 times in any single winter ice session in an individual arena due to a tournament (e.g., Saturday session from 1:00–3:00 pm will not be cancelled more than 5 times in a season). Alternate times may be scheduled to allow for makeup of public skating times.

8. Allocation Formula – Minor Organizations

Recreation Facilities will calculate each organizations base ice allocation from the formula. This calculation will be based on the registration data from the previous season supplied by each organization. Current season registration data will be submitted before December 1st each year.

Registrants may be counted only once for each winter season and must be residents of Chatham-Kent or covered under a joint use or operating agreement. Adjustments to registration numbers will be accepted until January 15th, but it is the responsibility of the organization to submit these adjustments to the Facilities Office.

The Municipality has the right to request registrant information to determine residency for administration purposes. Organizations **MUST**, under the *Municipal Freedom of Information and Protection of Privacy Act*, and the *Personal Information Protection and Electronic Documents Act*, receive consent from their registrants at the time of registration, authorizing the release of the information requested by the Municipality. The information will be used for applying the ice allocation policy compilation of statistical data and in planning or reviewing arena usage. Registration information must show the name, birth date, home address, phone number and the specific program in which participant is enrolled. Failure to provide accurate information to the Facilities Division at the designated times may result in loss of preferred times. The Municipality shall have the right to audit registration information at its discretion.

All groups MUST include the following disclaimer on their registration form: “The information on this form will be used to determine eligibility for ice allocation and statistical purposes, will be provided to the Municipality of Chatham-Kent and will be dealt with according to the *Municipal Freedom of Information and Protection of Privacy Act*. .”

9. Ice Shortages

In years where the number of prime ice hours calculated through the minor registration/allocation formula exceeds the number of hours available, each minor organization shall be allocated a portion of their ice time during non-prime time on a proportional basis.

10. Season – Regular

The ice allocation formula contained in this policy shall apply only to the regular season (3rd Friday in September – end of March, based on demand and determined by Facility Supervisors at each arena's ice allocation meeting). The parameters for pre-season & post-season will be determined at the ice allocation meetings for each arena.

11. Policy Review

The allocation policy may be reviewed from time to time by Administration. Any concerns or suggested changes by users must be forwarded to the local Facility Supervisor in writing. Any changes to the current policy will be presented to Council for approval.

12. Returning Ice

If an organization does not require its entire allocation, it may identify the number of surplus hours to the Municipality. The Municipality will then re-distribute the ice time among other users at its discretion.

The ice convener from each association or the private contract holder shall be the only person recognized to authorize bookings or changes to bookings.

13. Program Definitions

a. Travel Hockey/Ringette

Teams comprised of players who have been selected by try-out and that travel outside the home Arena or league play against teams that have been selected on a similar basis.

b. AAA

Teams comprised of players on a municipal wide basis, which travel against teams that have been selected on a similar basis will be allocated ice at various locations within the Municipality.

c. Local League

Teams comprised of players that travel outside the home Arena or league play against teams that have been developed on a similar basis.

d. House League Hockey/Ringette

These are players who are carded with the Association to play on “in house” league teams within a home arena and are not required to try out for the team.

e. Skating

Instructional - These are group instruction programs primarily to teach basic learn to skate skills. (I.e., Can Skate, Can Power)

Star Skater - Skaters who are participating in Skate Canada testing judged by a judge.

Synchronized Skating - A team of synchronized skaters who compete regularly.

Power Skating - A program designed to improve the skating of its participants and is fully available to the community at large.

f. Home Group

Means groups which have historically used a specific arena, with such determination being made by the Facility Supervisors.

g. Municipality

Means the Corporation of the Municipality of Chatham-Kent.

h. User

Means users of the ice/floor, whether a contract is executed between the parties or not.

i. Seasonal User

Means users of the ice/floor where a contract is executed between the parties for use at regular weekly times throughout the whole season.

14. Figure Skating Programs

For the purpose of calculating Figure Skating allocation, the Municipality is governed by Skate Canada's recommendation of a maximum of 50 – 60 learn to skate participants on the ice per session for safety reasons.

STAR Skater is defined as anyone who is working on a test that must be judged by a Skate Canada judge. To determine classification a skater must possess 2 of the awards in that level. Competitive Skater is defined as anyone who has passed a competitive test as designed by Skate Canada.

To define the total # of synchronized skaters to be used in the formula, the guideline set forth by Skate Canada of 24 skaters per team was used.

Level	# of Skaters	Time Allotted
Can-Skate/ Learn to skate	50	1 Hour/wk
Star/ Competitive Skater	1	11.6 Minutes
Synchronized	24	1.5 Hours/wk

a. Formula for Figure Skating

Can-Skate Program – Total # of registrations / 50 x 1 Hour = Total Allotment

Star/Competitive Skate Program – Total registered x 11.6 Min. = Total Allotment

Synchronized Skating– Total registered / 24 x 1.5 Hrs = Total Allotment

15. Hockey/ Ringette Programs

Once the number of travel teams for each age division has been determined, ice time will be allocated based upon the Associations previous year's eligible registrations. Travel teams will be assigned the maximum number of players per team and the balance of registrations will be house league.

The formula will standardize the minimum number of participants per team.

40 players per hour instructional or tyke

15 players per team house league

16 players per team travel/A/E or Local League teams

Fractions will be rounded to the nearest decimal point and the total ice allocation will be rounded to the nearest ½ or full hour.

Age Group	House League Hours per week	Local League Hours per week	Travel Team Hours per week
Instructional/ Tyke Under 6	1 hour	1 hour	1 hour
Novice Ages 7-8	1.5 hours	2.0 hours	2.5 hours
Atom Ages 9-10	1.5 hours	2.0 hours	2.5 hours
Peewee Ages 11-12	1.5 hours	2.0 hours	2.5 hours
Bantam Ages 13-14	1.75 hours	2.5 hours	3.0 hours
Midget Ages 15-16-17	2 hours	2.5 hours	3.0 hours
Juvenile Ages 18-19	2 hours	2.5 hours	3.0 hours

Common Principles for Allocation of Hockey Ice

Travel Teams – 1 game per week – 1 practice per week

Local Teams – 1 game per week – 1 shared practice per week

House Teams – 1 shared game per week – 1 shared practice per week

Where a Home Centre does not have enough registrations to require tryouts for a team, the House League criteria would be used.

16. Merged Groups

Merged groups will be allocated ice according to the guidelines of this policy. Allocation at each arena will be based on registration numbers residing in each arena district.

Example: Merged group has 300 members.

195 members reside in Arena 'A' district

105 members reside in Arena 'B' district

65% of merged groups' ice time will be at Arena 'A' and 35% at Arena 'B'.

Terms & Conditions – Ice/Floor Use

Where figure skating use results in additional ice repair, administration will impose a maintenance period on the figure skating group to ensure a safe ice surface and will reduce the ice time according.
