Re: Greenhouse Light Emissions

“Whereas the greenhouse industry is an important part of agriculture today and in the future in Chatham-Kent,

And whereas it is important to ensure greenhouse owners are able to be successful, while simultaneously promoting the existence of dark night sky in the Municipality of Chatham-Kent.

Therefore be it resolved that staff return to Council with a report on the subject of greenhouse light emissions. This report include a summary of engagement with industry stakeholders, members of the public, and neighbouring communities with regard to greenhouse regulations and that this report provide recommendations with options to proactively address any potential light nuisance from greenhouses in CK. This report return to council no later than April 1st 2021

Signed: Councillor Melissa Harrigan
