Re: Ice Rental Rates

Whereas Covid-19 has created an ever changing landscape and whereas Public health for the safety and well-being of the community has restricted utilization to non CK residents;

And Whereas CK's border communities have intergraded users and programs.

Be it resolved that:

- 1. Administration be provided the latitude to reduce ice rental rates to user groups experiencing a drop in significant membership during the Covid-19 grey zone restrictions to a maximum 20 percent. This only being applied to user groups that have had a recent impact with the latest guidelines and until the guidelines are in place.**
- 2. Extend the current trial reduced ice rates for 2021 season (to April 2022)**

Signed: Councillor Anthony Ceccacci
