

Municipality Of Chatham-Kent
Infrastructure and Engineering Services
Drainage, Asset and Waste Management

To: Mayor and Members of Council

From: Brigian Barlow
Manager, Drainage Services

Date: January 27, 2021

Subject: Approval of Contractor Roster for Municipal Drain Projects

Recommendations

It is recommended that:

1. The attached Drainage Contractor Roster list (Appendix A) be approved for use by the Municipality for works on Municipal Drains for a period of three years.
2. The Mayor and Clerk be authorized to sign the necessary agreements.

Background

In February 2018, the Drainage Division obtained Council approval on a contractor roster list for Municipal Drain projects under \$75,000 for a period of three years. A roster list was developed through an Request for Proposal (RFP) process in accordance with the Purchasing By-Law. The existing roster list expires March 2021 and therefore a new RFP was issued in November 2020.

Comments

Five detailed RFP's were available for consideration representing the five Drainage Superintendent areas. RFPs were called and received by the Purchasing Officer on November 18, 2020. Fifty-five contractors submitted proposals for various types of work typically expected to occur on Municipal Drains. Submissions were rated according to the evaluation matrix breakdown advertised within the RFP.

The roster covers many types of trades and construction disciplines. There are a total of 64 types of project work that contractors can apply for including excavation, pump manufacturing, electrical work, tree services, directional drilling, culvert installation and bridge repairs. Proponents received a score for each project type requested in their

submission. Scores were derived from comparing past project experience, equipment capabilities, staff credentials, hourly rates and overall competitiveness. The submissions were scored and ranked in order of highest to lowest. The amount of work available determines the number of contractors needed for each scope of work. This method has proven to be a fair and competitive process for securing drainage service providers. Proponents may request feedback on their scores by contacting the Drainage Division.

The RFPs have been reviewed and scored by the Drainage Division and Purchasing Officer and found to be complete.

Accordingly, it is recommended that the attached Drainage Contractor Roster list (Appendix A) be approved for use in awarding drainage projects under \$100,000 as per current purchasing policy limits for a period of three years. Projects that exceed \$100,000 will be issued a formal RFP.

Areas of Strategic Focus and Critical Success Factors

The recommendations in this report support the following areas of strategic focus:

- Economic Prosperity:
Chatham-Kent is an innovative and thriving community with a diversified economy
- A Healthy and Safe Community:
Chatham-Kent is a healthy and safe community with sustainable population growth
- People and Culture:
Chatham-Kent is recognized as a culturally vibrant, dynamic, and creative community
- Environmental Sustainability:
Chatham-Kent is a community that is environmentally sustainable and promotes stewardship of our natural resources

The recommendations in this report support the following critical success factors:

- Financial Sustainability:
The Corporation of the Municipality of Chatham-Kent is financially sustainable
- Open, Transparent and Effective Governance:
The Corporation of the Municipality of Chatham-Kent is open, transparent and effectively governed with efficient and bold, visionary leadership
- Has the potential to support all areas of strategic focus & critical success factors
- Neutral issues (does not support negatively or positively)

Consultation

The Purchasing Department was consulted during the RFP process.

Financial Implications

In accordance with the Drainage Act, the costs of municipal drain work is fairly assessed to the benefitting landowners and road authority. Agriculturally assessed properties are eligible for a one-third grant through the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA). In 2020, the municipal annual financial contribution was approximately \$1.8 million.
