

Motion

Re: External Audit of Staffing Levels and Departmental Structures

That Council retain the firm Grant Thornton to conduct an audit and analysis of the Municipality of Chatham-Kent's staffing levels, return on investment of existing departmental structures and any other aspects of the organization concerning the business of the municipality that the firm believes warrants examination. This, unlike an internal service review, will be executed by a neutral, arm's length consulting firm. The results of the review will be brought back to Council and the CAO in the form of recommendations upon which Council can choose, or not choose, to accept and take action.

Signed: Councillor Michael Bondy
