Re: By-law Options to Prohibit "Spite Fences"

"Whereas Chatham-Kent continues efforts to attract and retain residents from a diverse geographical and demographical range.

And whereas among the features that contribute to the attractiveness and livability of the municipality are its lakes, rivers and open spaces and the views they provide.

And whereas these views create significant and tangible benefits for businesses, residents and visitors to the city and contribute to the economic wellbeing of the municipality by enhancing property values.

Therefore be it resolved that administration draft an information report regarding potential bylaw options to prohibit the creation of barriers or 'spite fences' that obstruct view."

Signed: Councillor Trevor Thompson
